The Sol Group
A new approach to the oil industry

Our Businesses

The Sol Group was formed through the acquisition of Shell's petroleum distribution and marketing businesses in the Eastern Caribbean, Guyana, Suriname and Belize. Sol supplies fuels, lubricants, bitumen and LPG through an extensive distribution network consisting of more than 125 branded service stations, the largest marine coverage in the area and a reliable supply to over 2,000 commercial customers in the region. Sol operates its retail network under licensed use of the Shell brand and acts as the sole distributor of Shell's fuels and lubricants in the region. Sol's marketing of Shell products is fully backed by Shell's world class technical expertise.

Territories

Eastern Caribbean: Sol operates directly and through distributor businesses in Barbados, St. Lucia, Netherlands Antilles, Dominica, Antigua, St. Kitts & Nevis, British Virgin Islands, Anguilla, Grenada, and St. Vincent. The portfolio in the islands consists of over

80 service stations and over 500 commercial customers served by approximately 180 permanent staff.

Guyana: Established in 1986, this operation services many commercial customers with fuels and lubricants (including LPG) and includes a network of 9 branded service stations.

Suriname: The business in Suriname was established in 1986 and Sol has a leading market share in marketing fuels and lubricants through its network of service stations and in the mining sector in this country.

Belize: Sol in Belize markets fuels and lubricants to 15 service stations and numerous commercial accounts.

CHINESE JADE
FROM
DISTANT CENTURIES

One of the characteristics
of jade attributable to the
Song Period (960 - 1279 AD)
is the combination of
strong overall design and
finely incised archaic patterns.
Our Mandarin Duck is a case in point.

This work of art represents
exquisite fidelity, following the
Chinese belief that ducks become
strongly attached when paired.

Come visit our blissful duck and
other friends from distant centuries
at our new offices in San Francisco.
